

Configuring Swimlanes

Navigate to Board Configuration Screen. Tab Swimlanes

There are two options

Jira Instances

This way each swimlane will correspond to Jira Source

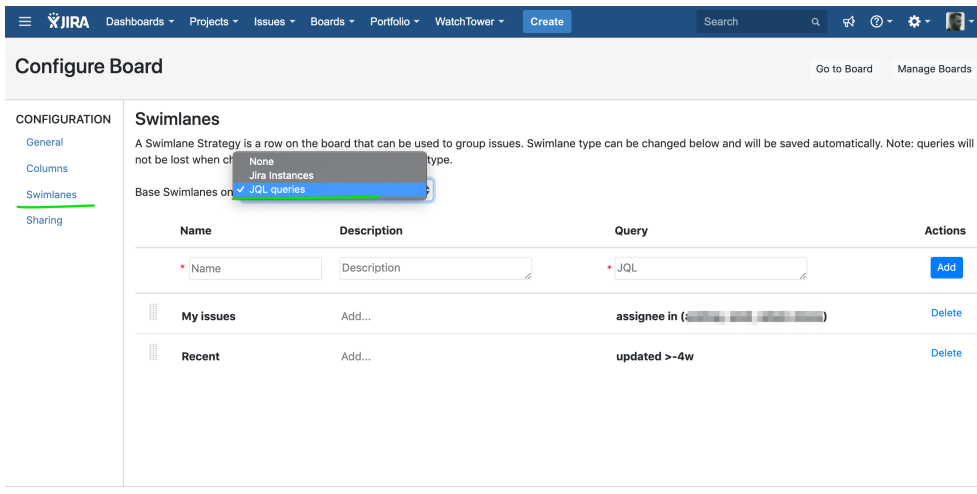

JQL queries

Since version 1.6.0

You can add custom swimlanes based on cross Jira instance JQL query.

- Name of the swimlane be used as a title of swimlane on a board
- Query - is cross instance JQL query, similar to Quick Filter

The Board displays a total of 100 issues.
