

Rozdoun Apps: Privacy Policy

This privacy policy describes how we treat your personal information and data when you use the apps created by Rozdoun.

Reopening Counter, Agile Remaining Estimate Counter, Streak Connector for Jira, Freshbooks Connector and Absence Tracking for Jira do not collect and store any personal info about users when you install an app to your Jira.

Watchtower. One board for multiple Jiras collects anonymous statistics of the add-on usage, more details please read [WatchTower for Jira Documentation](#).

[Time Reports for Remote Jira](#) and [Trello Board Inside Jira](#) are WatchTower extensions and do not store any personal data.

Atlassian provides us certain technical contact and billing contact information via Sales API when you install app and evaluation of full license is applied to the app. For more details please read [Atlassian's privacy policy](#).

We may contact you to get more info about the quality of our apps and improvements of them in future. If you don't want to get any emails from Rozdoun, please let us know and we will remove you from the list.
