The banner features a blue background with a white hourglass icon in a circle on the left. To the right, the text reads "Range Estimate" in large blue font, followed by "Possibility to have optimistic and pessimistic estimates for an issue" in smaller white font. Below this, there are three white panels showing progress bars for "Optimistic", "Pessimistic", and "Logged" estimates. The "Optimistic" panel shows a 2h total range with a 1h optimistic portion. The "Pessimistic" panel shows a 4h total range with a 3h pessimistic portion. The "Logged" panel shows a 1h total range with a 1h logged portion. A larger, more detailed version of these panels is shown in the foreground, with the "Optimistic" panel showing a 2h total range with a 0m optimistic portion, and the "Pessimistic" panel showing a 4h total range with a 1h pessimistic portion. The "Logged" panel shows a 3h total range with a 3h logged portion. The Rozdum logo is in the bottom right corner.
